The Tax Cuts Jobs Act (TCJA) was signed into law on December 22nd, 2017. The TCJA resulted in a \$2.1 billion decrease in net income driven by the deemed repatriation charge and adjustments to the value of tax oriented investments, partially offset by a benefit from the revaluation of JPMorgan Chase Bank, N.A.'s net deferred tax liability. The TCJA impact is an estimate which may be refined throughout 2018 based on new information or interpretations. The impact of the TCJA was calculated based on all available information and published legislative guidance however certain amounts are considered to be estimates under Staff Accounting Bulletin No. 118. We anticipate refinements will result from the issuance of future legislative and accounting clarity as well as those in the normal course including the provision to return process and resolution of tax audits

Part II. Loans to Small Businesses and Small Farms

Report the number and amount currently outstanding as of the report date of business loans with “original amounts” of \$1,000,000 or less and farm loans with “original amounts” of \$500,000 or less. The following guidelines should be used to determine the “original amount” of a loan:

- (1) For loans drawn down under lines of credit or loan commitments, the “original amount” of the loan is the size of the line of credit or loan commitment when the line of credit or loan commitment was *most recently* approved, extended, or renewed prior to the report date. However, if the amount currently outstanding as of the report date exceeds this size, the “original amount” is the amount currently outstanding on the report date.
- (2) For loan participations and syndications, the “original amount” of the loan participation or syndication is the entire amount of the credit originated by the lead lender.
- (3) For all other loans, the “original amount” is the total amount of the loan at origination or the amount currently outstanding as of the report date, whichever is larger.
