### Incorporation

The Registered Bank is a national banking association offering a wide range of banking and financial services to its customers both domestically and internationally. It is chartered by the Office of the Comptroller of the Currency (OCC), a bureau of the United States Department of the Treasury. The Registered Bank's main office is located in Columbus, Ohio.

The Registered Bank was organised in the legal form of a banking corporation under the laws of the State of New York on 26 November 1968 for an unlimited duration. On 13 November 2004 it converted from a New York State banking corporation to a national banking association. On the same date Bank One, National Association (Chicago, Illinois) and Bank One, National Association (Columbus, Ohio) merged into JPMorgan Chase Bank, with the Registered Bank being the surviving legal entity.

The Registered Bank is one of the principal, wholly-owned subsidiaries of JPMCC. The ordinary shares of JPMCC are listed on the New York and London Exchanges and form part of the Dow Jones Industrial Average index of the New York Stock Exchange. JPMCC delisted its shares from the Tokyo Exchange effective Sunday, 26 April 2015.

### 3. FINANCIAL SUPPORT

#### Ranking of Local Creditors in Winding-up

NZ Branch is a branch of the Registered Bank and is not a separate legal entity. Therefore, assets and liabilities of NZ Branch are consolidated in the balance sheet of the Registered Bank.

The rights of all creditors of the Registered Bank, including those located in New Zealand, in the event of the Registered Bank's insolvency, would be governed by the U.S. Federal Deposit Insurance Act of 1950. Under U.S. federal law, the Office of the Comptroller of the Currency, as the appropriate federal banking regulator of national banks, is empowered to declare a national bank insolvent, and appoint the Federal Deposit Insurance Corporation (the "FDIC") as receiver. In this role, the FDIC is authorised to liquidate the assets of the insolvent institution and distribute the proceeds to the institution's creditors. Payment to holders of insured deposits held in the Registered Bank's U.S. Branches, administrative expenses of the receiver and secured creditors rank in priority of payment over all other unsecured creditors, including depositors in the Registered Bank's non-U.S. branches (such as NZ Branch) who would then rank *pari passu* in order of payment. The basic insurance amount is US\$250,000 per U.S. depositor per insured. In addition, U.S. federal law provides that national banks are not required to repay deposits at their non-U.S. branches if the relevant branch cannot pay them due to an action by the local government preventing payment or an act of war, insurrection or civil strife, unless the bank has expressly agreed in writing to repay the deposits under those circumstances.

No material obligations of the New Zealand business of the Registered Bank (or the Banking Group) are guaranteed as at the date of signing the Disclosure Statement.

## **Transactions with Related Persons**

JPMCC has adopted a policy entitled "Transactions with Related Persons Policy" (Policy) which sets forth JPMCC's policies and procedures for reviewing and approving transactions with related persons (i.e. JPMCC's Directors, executive officers and their immediate family members). The transactions covered by the Policy include any financial transaction, arrangement or relationship in which JPMCC (including the Registered Bank) is a participant, where:

- the related person has or will have a direct or indirect material interest; and
- the aggregate amount involved will or may be expected to exceed US\$120,000 in any fiscal year.

After becoming aware of any transaction which may be subject to the Policy, the related person is required to report all relevant facts with respect to the transaction to the General Counsel of JPMCC.

Upon determination by the General Counsel that a transaction requires review under the Policy, the material facts of the transaction and the related person's interest in the transaction are provided, in the case of Directors, to the Governance Committee of JPMCC and, in the case of executive officers, to the Audit Committee.

The transaction is then reviewed by the applicable committee, which determines whether approval or ratification of the transaction shall be granted. In reviewing a transaction, the applicable committee considers facts and circumstances which it considers relevant to its determination. Material facts may include:

- management's assessment of the commercial reasonableness of the transaction;
- the materiality of the related person's direct or indirect interest in the transaction;
- whether the transaction may involve an actual or the appearance of a conflict of interest; and
- if the transaction involves a Director, the impact of the transaction on the Director's independence.

Certain types of transactions are pre-approved in accordance with the terms of the Policy. These include transactions in the ordinary course of business involving financial products and services provided by, or to, JPMCC (including the Registered Bank), including loans, provided such transactions are in compliance with the Sarbanes-Oxley Act, Federal Reserve Board Regulation O and other applicable laws and regulations.

## **Regulation O**

Regulation O of the Federal Reserve Board of the United States of America establishes requirements for loans and other extensions of credit that the Registered Bank may make to persons affiliated with the Registered Bank. The purpose of Regulation O is to protect the soundness of financial institutions in the United States of America by preventing unwarranted extensions of credit by a financial institution to persons affiliated with the financial institution that could put the financial institution's capital at risk. Regulation O prohibits the Registered Bank from lending to its Directors and their related interests unless such extensions of credit:

- are made on substantially the same terms and conditions, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated third parties;

## Regulation O (continued)

- are made following credit underwriting procedures that are not less stringent than for comparable transactions with unrelated third parties; and
- do not involve more than the normal risk of repayment or present other unfavourable features.

The New Zealand Chief Executive Officer is not subject to Regulation O.

## Conflicts of Interest

The Conflicts Office of JPMCC monitors the Registered Bank's business activities to avoid or manage any conflicts of interests and related reputation risks. The Conflicts Office reviews transactions, products and activities that may pose significant risks to the Registered Bank's reputation as a result of actual or perceived conflicts of interest. Any transaction, product or activity that raises significant reputation risk for the Registered Bank as a result of actual or perceived conflicts of interest must be referred to the Conflicts Office for review and approval. JPMCC's policy entitled "Global Conflicts Policy" (and related, business-specific modifications) describes the activities subject to the Registered Bank's conflicts risk management and the requirements for reporting them.

## Corporate Governance and Risk Management

The Registered Bank's Board and management execute their duties with regards to meeting prudential and statutory requirements by setting in place prudent risk management policies and controls.

## STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

### A. Statutory Base

These financial statements have been prepared and presented in accordance with the requirements of the Financial Reporting Act 2013, the Financial Markets Conduct Act 2013 (the Act), the Companies Act 1993, the Registered Bank Disclosure Statements (Overseas Incorporated Registered Banks) Order, 2014 (as amended), the Reserve Bank of New Zealand Act 1989, applicable New Zealand equivalents to International Financial Reporting Standards (NZ-IFRS) and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. The financial report, comprising the financial statements and accompanying notes of the Banking Group (as defined on page 1) comply with International Financial Reporting Standards.

These financial statements are for the Banking Group and are authorised by the Directors for issue on 27 November 2017. The Registered Bank has the power to amend and re-issue the financial report.

### B. Measurement Base

The financial statements are based on the general principles of historical cost, as modified by the valuation of certain assets which are recorded at their fair values. The going concern concept and the accruals concept of accounting have been adopted. All amounts are expressed in New Zealand dollars and all references to "\$" are to New Zealand dollars unless otherwise stated. The amounts in the financial report have been rounded to the nearest thousand dollars, unless otherwise stated.

### C. Basis of Aggregation and Preparation

This interim report has been prepared in accordance with the New Zealand Equivalent to International Accounting Standard (IAS) 34.

The financial statements of NZ Branch, the New Zealand branch operations of J.P. Morgan Australia Limited, J.P. Morgan Securities Australia Limited and J.P. Morgan Markets Australia Pty Limited, have been aggregated to form the Banking Group.

All transactions and balances between entities within the Banking Group have been eliminated.

### D. Comparatives

Where necessary, comparatives have been reclassified to conform with changes in presentation in the current reporting period. Where restatements are material, the nature of and the reason for the restatement are disclosed in the relevant note.

### E. Critical Accounting Estimates and Judgements

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Banking Group's accounting policies. Estimates and judgements are determined using historical knowledge and other factors, including a reasonable expectation of future events. Estimates, where applied, are subject to continuing evaluation for appropriateness. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are detailed below.

- **Fair Value**

Where an active market exists for a financial instrument, fair values are determined by reference to the quoted prices/yields at balance date. Such instruments are classified as level 1 within the fair value hierarchy table in the audited financial statements of the Banking Group for the year ended 31 December 2016. However, for certain financial instruments where no active market exists, judgement is used to select the valuation technique which best estimates its fair value.

## STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### E. Critical Accounting Estimates and Judgements (continued)

The fair value of financial instruments held by the Banking Group at balance date, where valuation techniques or models have been applied, are classified within level 2 of the fair value hierarchy table, when inputs to the techniques and models are market observable.

- **Impairment of Goodwill and Intangible Assets**

Goodwill and intangible assets are tested annually for impairment to determine whether the fair value is less than the carrying amount and whether the impairment is other than temporary. The fair value is determined based on present value of future cash flow projection at a discount rate of 15.0%. The cash flow projection model is based on management assumptions of future growth rates for expenses and revenue. All future cash flows are based on five year projections based on most recent forecasts, incorporating a 1% growth rate. The business forecasts applied by management are considered appropriate as they are based on past experience and are consistent with observable current market information. The results of the impairment testing performed did not result in any impairment being identified.

There are no other judgements that management has made in the process of applying the Banking Group's accounting policies that have a significant effect on the amounts recognised in the financial statements, nor any key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

### F. Significant Accounting Policies

There have been no changes in accounting policies or methods of computation in the preparation of the financial statements for the nine months ended 30 September 2017 since the most recent annual financial statements for the year ended 31 December 2016.

Any person, upon request and without charge, may obtain a copy of the Banking Group's most recent Disclosure Statement, which contains a copy of the most recent publicly available (un-audited) consolidated financial statements of the Registered Bank ("Call Report") for the period ended September 30, 2017 and the Registered Bank's audited financial statements for the fiscal year ended December 31, 2016 ("2016 Financials") by requesting a copy from [jpm\\_rbnz\\_finance\\_au@jpmorgan.com](mailto:jpm_rbnz_finance_au@jpmorgan.com). The most recent Call Report is also available online at <http://www.jpmorgan.com/pages/international/newzealand>.

The Call Report is prepared in accordance with the regulatory instructions issued by the Federal Financial Institutions Examination Council ("FFIEC"), as compared to the 2016 Financials which is prepared in accordance with U.S. GAAP. In 1997, the FFIEC adopted U.S. GAAP as the reporting basis for the consolidated balance sheet, income statement and related schedules included in the Call Report. Despite the adoption of U.S. GAAP as the reporting basis for the Call Report, the presentation of financial statements in the Call Report differs significantly from the presentation of financial statements included in the 2016 Financials, including without limitation the Call Report generally contains less disclosure than audited financial statements prepared in accordance with U.S. GAAP.

**NOTE 19 – CAPITAL ADEQUACY**

The Federal Reserve Board establishes capital requirements for the consolidated financial holding company, JPMCC. The Office of the Comptroller of the Currency (“OCC”) establishes similar requirements for the Registered Bank.

Under the risk-based capital guidelines of the OCC, the Registered Bank is required to maintain minimum ratios of CET1, Tier 1 and Total capital to risk-weighted assets (“RWA”). The Registered Bank is required to calculate its capital adequacy under both of the Basel III approaches (Standardized and Advanced) as required by the Collins Amendment of the Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”). The Registered Bank’s capital adequacy is evaluated against the lower of the two ratios. Failure to meet these minimum requirements could cause the OCC to take action. The Registered Bank is required to maintain minimum ratios for CET1 of 4.5%, Tier 1 Capital of 6% and Total Capital of 8% as at 30 September, 2017. A capital conservation buffer of 1.25% applies in addition to these ratios.

The ratios given below for the Registered Bank are for the consolidated group, including the Registered Bank and its subsidiary and associated companies.

Total Capital	15.44%	15.09%	14.05%	14.47%

As at the reporting date, the Registered Bank met all capital requirements to which it was subject. For information on the Basel III capital adequacy framework in relation to JPMCC and the Registered Bank, see page 42 of the 10-Q report, which is available on the investor relations website, at <https://www.jpmorganchase.com/corporate/investor-relations/investor-relations.htm>.

The most recent publicly available Call Report of the Banking Group and the Registered Bank can be accessed online at <http://www.jpmorgan.com/pages/international/newzealand>.

**NOTE 20 – CONCENTRATION OF CREDIT EXPOSURE TO INDIVIDUAL COUNTERPARTIES**

Such Banker's Blanket Bond cover is maintained with limits of cover which vary from time to time but which are considered prudent and in accordance with international levels and insurance market capacity.
